

HEAVY DIESEL MECHANIC APPRENTICESHIP

Launceston Based

Do you want to turn your passion for tinkering with cars into a career in the automotive industry?

Tasmania's Own Redline is looking for an enthusiastic person looking to complete a four-year apprenticeship as a Heavy Diesel Mechanic at our workshops in Invermay. You will be supported by 4 qualified mechanics while you work on our fleet of over 80 vehicles to get your trade qualification.

Redline is Tasmania's most trusted and experienced coach company, operating general access services between major towns, school runs, and charter and touring services. We are a family owned company that has been operating for over 90 years. We have operations in Hobart, Launceston, Devonport and Burnie, and workshops in both Launceston and Hobart.

The apprenticeship is a mix of week-long classroom blocks at TasTAFE, combined with hands on learning in our workshop at Invermay on a full time basis. Through the apprenticeship you will gain both the theoretical and practical skills required to gain your nationally recognised trade qualification.

To succeed in the role it is necessary to have great interpersonal skills, a positive attitude, a willingness to work hard, and a willingness to learn from others.

You will need to be prepared to commit to completing the required studies and staying for the full 4 year apprenticeship, and beyond. This is a great opportunity for someone who:

- Has completed Year 10 or higher
- Has a genuine passion and aptitude for mechanical and technical tasks
- Is able to multi-task in a busy environment
- Enjoys 'Hands-On' learning
- Is always willing to jump in and help with whatever is required
- Has good written literacy and numeracy skills
- Has a commitment to working safely and in a tidy manner
- Has a reliable means of getting to Invermay each day
- Must be able to commence prior to 1 August 2021
- Is willing to undertake pre-employment aptitude and medical tests, including drug and alcohol screening

It would be advantageous if you also have a drivers licence, and have already undertaken some pre-apprenticeship automotive training at school or TAFE.

Candidates of all ages, backgrounds, and levels of experience will be considered as we are looking for someone with the right attitude that will work well with the team to deliver positive outcomes for the business.

Some travel within Tasmania and interstate may be required for training purposes.

If this is you then we encourage you to apply for the role today! To apply, you should email your resume and a cover letter to introduce yourself to us in your own words telling us:

- Why you want to be a Heavy Vehicle Diesel Mechanic?
- Why do you think you will make a great mechanic?
- What your biggest strengths are and what skills you can bring to the role
- What experience you have working on cars and other vehicles (including your own backyard projects)
- Any work or volunteer work that you have done, and what skills you think you learned from that work that will help you in this apprenticeship
- What your passions and hobbies are
- Anything else you want to tell us about yourself and your interest in the role

Email your application to employment@tasredline.com.au

Applications close 18 June 2021.
